

Neurobiologisches Kolloquium/Seminars in Neurosciences

Montag 12.10.09

um 16:30 s.t. es sprechen **im Hörsaal des Biozentrums**

Andreas Behrends

Technische Universität Berlin

„Learning in the aging honeybee brain: a study on
receptor gene expression and biogenic amines”

und

PD Dr. Ricarda Scheiner

Heisenberg Fellow, Institute for Ecology/Dept. of Neurobiology
Technische Universität Berlin

„The honey bee as a model for the plasticity of
aging“
